

POLLINATORS UNDER THREAT: IDENTIFYING CHALLENGES

Review the resources below to understand some of the challenges faced by pollinators. Which challenges are most significant in your community? What are some actions that could help to support or restore your community's pollinator population?

Penn State Cooperative Extension, *Pollinators and Their Threats*

<https://ento.psu.edu/publications/pollinatorthreats>

Xerces Society, *Pesticides and Other Threats to Pollinators* (20:42 video)

Extender Activity:

What challenges might be faced by humans if pollinator populations decline? What changes would a decline in pollinators have on your community? What impacts might a decline in pollinators have for you?
