

## PLANT PROPAGATION

Plants can be produced from seeds or from cuttings from a parent plant. Read through the resource below, and try propagating a plant at home.

Memorial University of Newfoundland Botanical Garden,

*Propagating Seeds: Botanists in Training*

<https://www.mun.ca/botgarden/learn/BITSproutingSeeds.pdf>

*Extender Activity:*

Use the instructions below to “train” the growth of your propagating plant.

Chicago Botanic Garden, *How to Train Your Plant*
