

Mushroom Stamp Art

Mushrooms can make art! You can make stamp art with old mushrooms:

- Cut or pull off the mushroom stem.
- Take the cap and gills. Paint the gills with a brush. Stamp the painted gills on a piece of paper to make a mushroom pattern!
- Paint the ends of the stem. Stamp the stem on a piece of paper to make a smaller circular pattern!

What other parts of the mushroom can you use as stamps? Can you cut or break the mushrooms in different ways to make unique shapes for your stamps?
