

# Hügelkultur

A hügelkultur (*hoo-gull-culture*) is one way of making a garden. The picture below shows how it is made:

- Put logs, tree branches, and other plant material into a pile.
- Cover the pile with soil and compost.
- Add plants on top of the soil!

Now look at the pictures on the next page. What do you add to a hügelkultur first? Can you put them in the right order for how you would add them?

Can you draw your own hügelkultur?

Sage plant

Logs

Basil plant

Soil

Bean plant
