

Mud Paints

Make a painting with mud! Here's how to make mud paints:

- Put 1 cup of soil into a container. Check for rocks and worms.
- Mix small amounts of water into the soil. Keep adding water until you have mud.
- Add food coloring, watercolor paint, or tempura paint for color. Create as many separate colors as you'd like.
- Mix a squirt of dish soap into the mud.
- Paint with brushes on cardboard or heavy cardstock papers.
